

EventRide

THE GUEST-EXPERIENCE PLATFORM FOR WEDDINGS

One page for a wedding's guests.

From the first invitation to the final photograph, and every journey in between. Built for weddings where the guests travel in. Offered to couples through their planner.

The invitation

A save the date and an invitation, designed on the platform or the couple's own. Every guest arrives at one page with one code.

Travelling together

Guests going the same way are shown to each other, to travel together and share the cost. The heart of it.

The album

Every guest's photographs in one shared album, opened when the celebrations begin and kept by the couple.

WHAT YOU GET

The arrival picture, without the spreadsheet.

How they arrive	How many guests arrive through each airport or station, on which days, and how stays spread across areas.
Every reply	Each person's reply as it comes in, and, where a guest shares them, their arrival, stay and dietary needs.
One export	All of it as one data export, whenever you ask for it.
Reminders	Three gentle emails that show a guest where they have got to and the one thing to do next. You set the timing and the words.
Inside your service	The guest page carries EventRide's own quiet identity, restrained enough to sit inside the service you already give.

WHAT IT NEVER DOES

EventRide never books, sells or arranges travel or accommodation, and takes no payment from guests. It shows an overlap and steps back. Matching is opt in, full names and contact details appear only when both households agree, and journey details are deleted within thirty days of the wedding.

IN SIX STEPS

ONE · THE WAY IN

Each guest enters the code from their invitation. No account, no password.

TWO · THE REPLY

Each person on the invitation, marked as coming or not.

THREE · THE JOURNEY

Flying, by train or driving; which airport; which day and roughly when.

FOUR · TRAVELLING TOGETHER

Guests going the same way are shown to each other. Both sides choose.

FIVE · THE STAY

The place, the area, or not booked yet. It orders the list; it never makes a match.

SIX · AFTERWARDS

One album, opened when the celebrations begin, kept by the couple.
